FAMINE FEARED.

Kingston, Jamaica, May 31 .- Advices received here from Cuban camps in the vicinity of Santiago de Cuba state that the presence of Spanish warships there occasion fear of famine, because the military are mobolizing all supplies for themselves or the fleet, while the presence of the American warships outside prevents the carrying of provisions into port: great excitement prevails, and dissatisfaction among the populace is evident. Patriotic enthusiasm is subordinated, the people feeling that a mistake was made in bringing the squadron there. It was reported that Cervera only intended to take supplies, receive dispatches and proceed to engage Sampson ac sea.

CAUGHT FIRE.

the People on Broadway This Morning.

The Big Iron Steam Roller Comes Near Being Burned-It Escaped Destruction, However.

It is evident that the democrats do not know how to run a street roller. or else the fates are against them Mayor Lang recently rented the roller to the sewer contractors, they agreeing to indemnify the former against all damages provided the damages do not result from the care lessness or incompetency of the engineer. The city was to choose the engineer, and it did so.

The first time the machine was brought out, it persisted in going ust in the opposite direction from the one desired. It finally got stuck in the gutter on Broadway, and after working with it part of one afternoon it was finally gotten upon the street, and rolled around to the city hall, where it remained in the street for the small period of about two cr three weeks.

Today a fire was built in it, and after some little persuasion, it was gotten around on Broadway, where it was the desire of the contractors to tear up the street and save labor with pick-axes in the hard gravel. All went well for a short time, but the next thing noticed was a huge blaze enveloping the roller, and a volunteer Leon Blythe, of Murray, is at the fire department putting out the blaze. Buckets of water were hastily thrown M. C. Campbell, of Marion, is at on it, and finally the fire was subdued. It was a sight not often seen.

water tank at Little Cypress burning to the water's edge a while back, but to see a steam engine, afire both outside and in, was something many never expected to be regaled with. The blaze, which was at the "jacket" was put out without the assistance of the fire department, however, and the from roller was left in the middle of the street. It looks like the roller is displeased with the democratic administration. The republicans had no trouble with it.
